## SOLONS ADOPT PAY BOOST FOR CITY WORKERS

Increases Averaging \$10 a Month Approved For Non-Electives

### APPROPRIATIONS MEASURE PASSED

Council and Other Elected Officials Not Included In Pay Raise

Provisions for wage increases for non-elective city employees, averaging \$10 a month, were made in the \$232,262.27 appropriation for 1942 which city council passed last night as an emergency measure. The city has been operating on a three-month appropriation, which was passed early in January.

Council's finance and ordinance committees, together with Solicitor Henry L. Reese and Auditor Karl Webster, will confer soon to prepare ordinances changing the existing salary schedules in order that the wage boosts for the employees will be effective.

#### Special Meeting Planned

A special meeting is expected to be called to act upon the measure so that the wage increase will go into effect by April 1.

Harry Vincent, finance committee chairman, explained last night that his committee and the auditor had spent considerable time within the past month drafting the appropriation so as to take into consideration all city employees except council and other elected officials.

He pointed out, too, that councilmen had declined to accept a 10 per cent salary restoration, to which they are entitled. The electives have been working on a \$112.50 a year rate for sometime.

He explained that the increases for the city employees is not the peak, but that it is the best that can be given at the present time. The increases are expected to average \$120 a year for salaried help, with an equivalent boost for those working by hourly rates.

The finance committee head also recommended that council as a whole back up the city auditor on curbing any spending spree which might develop in any particular department, recalling several instances of the last administration.

#### Under Last Year's Figures

The \$232,262.27 appropriation for the current year passed last night is \$10,000 under the \$242,499.13 measure adopted a year ago. While salary requirements are up, obligations and other needs, in some instances, are lower.

Police department expenses for this year are listed at \$13,353, against \$12,913; for the fire department, \$24,661. A year ago it was \$23,671.

#### The 1942 appropriation:

Administration Council, \$1,072.50; clerk, \$425; Mayor, \$2,350; Auditor, \$2,300; Treasurer, \$560; Solicitor, \$2,250; Legal advertising, \$400; Judicial and mayor's court, \$600; Civil service commission, \$315.

## Japs' Propaganda Mills Turning Out MacArthur Stories

(EDITOR'S NOTE: President Roosevelt warned yesterday that Axis short wave propagandists would try to make capital of Gen. Douglas MacArthur's transfer to Australia by picturing it as abandonment of the Philippines. Following is the first Japanese reaction to the transfer to be broadcast.)

TOKYO (From Japanese Broadcasts), March 18.—Domei circulated this dispatch today:

"Observers commenting upon (General) MacArthur's abandoning his own forces and fleeing to Australia declared his flight is fatally similar to flights of (Australian Major General) Gordon Bennett and (British General Sir) Archibald Wavell from Singapore and the Netherlands East Indies, which immediately after fell into Japanese hands.

"They said this treacherous abandoning of a sinking ship seems to characterize Allied commanders who flee from post to post, leaving their soldiers to suffer the consequences."

"Pointing out the importance of a commander's presence to inspire fighting spirit, these quarters expressed the opinion that with such cowardice shown repeatedly by Allied generals it is no wonder that Allied forces are lacking in the will to fight."

## BRETT HEADS AIR DIVISION

Takes Command of Allied Force In Southwest Pacific

(By Associated Press) Assignment of Lieut. Gen. George H. Brett of the U. S. army to direct Allied air units in the southwest Pacific was announced today to United Nations already heartened by movement of substantial American forces to Australia and General Douglas MacArthur's appointment to supreme command.

Prime Minister John Curtin announced in Canberra that General Brett, 56, who holds a combat pilot's rating, would head the Australian, British, Dutch and United States squadrons marshaled for defense and the coming counter-offensive against Japan.

"We are the base from which to strike at the enemy," Curtin said, and it was evident that the short-term prospect of a Japanese invasion attempt did not obscure the offensive spirit.

## FOUR ARMY PLANES CRASH IN FLAMES

Ships Go Down Near Lima; First Survey Shows No Survivors

LIMA, March 18.—Four army planes crashed in flames six miles east of Lima shortly before noon today. There apparently were no survivors.

Byron Heffner, farmer, said he saw one plane fall on his farm and burst into flames. Two other planes fell about 100 yards apart a half mile east of the Heffner farm.

The fourth plane landed in the McClure woods a mile south of the Heffner farm and also burst into flames.

There was an unconfirmed report that one man could be seen in the plane downed in the woods.

Witnesses described all the ships as army planes.

## COLORED CHICKS BANNED BY SOLONS

The dyed and colored baby chicks which were in evidence in several store windows at Easter time a year ago will not be seen in Salem this season as the result of an ordinance which city council passed last night as an emergency measure.

The legislation, adopted as an emergency upon a motion by Councilmen Charles Rheutan and H. W. Peely, prohibits the "sale or display of dyed, colored or otherwise artificially treated baby chicks and ducklings."

## BLISS PLANT WORKER FIRST ON DRAFT LIST

Oliver C. Greenamyre, Serial 441, Wins No. 1 Ranking Here

### 13 HOURS REQUIRED FOR THIRD LOTTERY

Draftees May Be Taken To Build Ships and Airplanes

The first three numbers drawn in the nation's first wartime draft lottery missed the Salem board last night, but the next number—441—found Oliver Carey Greenamyre of R. D. 1, Salem, as the target.

He held serial number 441 which was contained in the fourth capsule pulled from the historic goldfish bowl in Washington. As a result, Greenamyre, an E. W. Bliss Co. employee, is No. 1 man here as far as the latest registration of 20-to-44 year old men is concerned.

Greenamyre, married and the father of three children, is an apprentice machinist at the Bliss plant.

The first three numbers drawn, 345, 250 and 430, did not affect the Salem board because the highest number here is 1985, held by Ernest Rader of R. D. 2. Any numbers higher than 1985 will be eliminated from the order sequence here when the draft board begins the assignment of the T (third registration) order numbers from the master sheet, sometime in the near future.

Thirteen additional numbers were drawn last night before the local board was again adjourned. This time it was No. 1817 held by Clyde Albert Dotson of Sheen's service station on the Lisbon road.

#### 13-Hour Lottery

The third draft lottery which lasted a little more than 13 hours, ending at 7:10 a. m. today, determined the order in which an estimated nine million men will be called for possible military service.

Only 6,998 numbers, two less than was planned, were drawn from the historic goldfish bowl. Secretary of War Stimson drew the first number.

Brigadier General Lewis B. Hershey, Selective Service chief, opened the ceremonies with a statement that men might be selected to build ships and airplanes and work farms as well as to fight at the front.

T order numbers of the first 40 men registered with the Salem board are:

- Order Serial No. No.
- 1—441—Oliver Carey Greenamyre, R. D. 1, Salem.
  - 2—1817—Clyde Albert Dotson, R. D. 2, Lisbon.
  - 3—1103—Walter Francis Smith, R. D. 2, Leetonia.
  - 4—1790—Oliver V. Boehm, R. D. 1, Homeworth.
  - 5—1584—Valentine Clott, 543 Columbia st.
  - 6—176—Robert Lee Sanders, R. D. 2, Salem.
  - 7—1577—William J. Beech, General Delivery, Leetonia.
  - 8—1156—Cortland Earl Johnson, 171 S. Ellsworth ave.
  - 9—606—Theodore Roosevelt Jones, 1491 Cleveland st.
  - 10—349—Ralph Bernard Kennedy, 414 Columbia st., Leetonia.
  - 11—129—Chester Arthur Burdick, 334 Lisbon st., Columbiana.
  - 12—968—Vernon Leroy Mangus, Box 76, Homeworth.

## SCHOOL PROBLEMS CLASS PLAY THEME

High school students, playing the kind of people they know most about, themselves, will be seen in the three act comedy, "Ever Since Eve," junior class play under the direction of Miss Jean McCarthy at the High school on the evenings of March 26 and 27.

A young lady journalism student, Susan Blake, is selected by popular vote of the student body to be associate editor of the school paper, and then institutes such sweeping changes that the entire faculty and student body find themselves in hot water.

The play, presented in four scenes, takes place in the bedroom of Johnny Clover, which he has converted into an office of the school paper. The school is situated across the street from Johnny's home.

The leads are held by Ruth Sinsler as Susan Blake and Howard Coy as Johnny Clover. Other members of the cast include Virginia Snyder, Herbert Hansell, Mary Byers, Dan Beardon, Robert Moore, Irene Fratila, Paul Evans, Dorothy Haldi, and Fred Krauss.

## DRILLING OF NEW WELL AUTHORIZED

More Water Sought In Face Of Expected Increase In Consumption

Service Director Frank Wilson and City Engineer F. S. Barchhoff were authorized by city council last night to proceed with the drilling of a new well, somewhere in the city, to boost the water supply in the face of an anticipated increase in consumption during the summer months.

The approval was made at the recommendation of the water committee headed by Arch Wentz.

He pointed out that the drilling of two new wells had been recommended by engineers some time ago and that he thought work should begin now on one well, at least.

Nothing new was reported on the city's plans to construct a 3,000,000-gallon water storage southwest of the city. Preliminary plans have been approved by the state board of health.

Council, at its regular meeting Tuesday night, instructed the service director to purchase slag to patch the asphalt street that had been damaged by the freezing and thawing. No materials are on hand at the present time.

Members of the finance and safety committee indicated that they would get together sometime next week to consider Mayor R. R. Johnson's request that a captaincy in the police ranks be established.

## NEW PATROL AIDS PURSUE STUDIES

Columbiana County Group One of Three Largest In State

Columbiana county's auxiliary highway patrol unit is one of the three largest in the state of Ohio. It has an average attendance of 60 and compares with similar organizations in Mahoning and Trumbull counties.

At the present time the Legionnaires are pursuing a course of study which covers 20 or more different defense subjects, equipping them with knowledge which will be of vital importance to the regular Ohio highway patrol groups in the event of emergencies.

The Columbiana county auxiliary convenes every Wednesday night at the Lisbon High school auditorium for class sessions conducted by officers of the Salem and Warren patrols. The course of study opened Feb. 11 and will continue indefinitely. Upon completion, Legionnaires will review past studies and take up new information from the Office of Civilian Defense.

The Mahoning auxiliary meets in Youngstown each Tuesday and the Trumbull county unit in Warren each Friday.

## DEFENSE COUNCIL ASKS MORE TRUCKS

Trucks, to be used as ambulances and for other general emergency hauling, are sought by the Salem Defense council.

Following a recent appeal, only one-third of the required number of trucks were registered. At least 25 trucks are needed. The Medical Advisory council points out, and owners who are willing to cooperate in the Civilian Defense effort are asked to sign up at the office of the Columbiana County Motor club, 740 E. State st., by Saturday. Officials hope that the goal might be reached by this weekend.

Closed delivery trucks will be used as ambulances, if needed. Others will be used for other emergency needs.

## 23 JAPANESE VESSELS ARE SUNK OR HIT

12 Warships Are Blasted In Concentration Near Salamaua and Lae

### LOSS OF ONLY ONE PLANE IS REPORTED

American submarine Shark Announced As Overdue For Month

(By Associated Press)

WASHINGTON, March 18.

—The navy announced today that a Japanese invasion force concentrated near Salamaua and Lae, New Guinea, had been smashed by American and Australian air forces with the sinking or damaging of 23 Japanese vessels including 12 warships.

"The heavy losses inflicted on the enemy by the combined American and Australian forces were accomplished with the loss of but one plane," said navy communique No. 57.

The same communique, reporting on activities in other areas, disclosed that the American submarine Shark has been overdue in the western Pacific for more than a month and "must be presumed to be lost." Next of kin of those aboard the Shark, including Lieutenant Commander Louis Shane, Jr., of Tacoma, Wash., have been notified of the loss of the vessel.

Further, the communique disclosed that the American submarine Sea Lion had been so damaged at Cavite in the Philippines as to necessitate her demolition to prevent her use by the enemy in event of capture, and the U. S. Destroyer Stewart, 1,190-ton World war type ship, was demolished at the Dutch Indies base of Soerabaja to prevent her falling into the hands of the enemy. There were no personnel casualties in the cases of the Sea Lion and the Stewart.

#### Move Into Battle Stations

Khaki-clad United States troops, officially described as "most substantial" in number, moved into battle stations in Australia today as Gen. Douglas MacArthur took over the Allied supreme command to meet a threatened Japanese invasion of the island continent.

Dispatches from Melbourne said the Americans were scattered to camps throughout Australia's vast domain of nearly 3,000,000 square miles.

At some points, they were quartered alongside Australian troops. The British Exchange Telegraph news agency said Gen. MacArthur arrived yesterday at Alice Springs, midway point on the long defense highway between Darwin, a U. S. army plane—a 2,000-mile trip by direct route to the nearest Australian base at Darwin.

"Gen. MacArthur's arrival does not mean that American forces are pulling out of the Philippines," declared Lieut. Col. Lloyd Lebrass, army press officer, in Melbourne.

"The United States army proposes to continue that fight. We are holding the Japanese in the Philippines, and we intend to continue holding them."

## SEVEN ARE INJURED IN NORTH LIMA AREA

Seven persons suffered minor injuries in two traffic accidents in the vicinity of North Lima on Tuesday, according to state highway patrolmen.

A collision on Route 7 in North Lima at 7 p. m. involved car operated by Edward Vidumaski, 24, of Struthers, and Lloyd D. Townsend, 16, of R. D. 1, Columbiana.

Vidumaski lost several front teeth, while his wife, Mildred, suffered forehead lacerations and abrasions of the right knee.

Townsend received a bruised left leg, while Robert Hanley, 16, of North Lima, riding with Townsend, received a forehead cut.

Paul Taus, 22, of East Palestine, was charged with reckless driving after he fell asleep and his car struck another driven by Beatrice Seidner, 17, of New Springfield, at the junction of Routes 165 and 626 east of North Lima, yesterday morning.

Taus, who escaped with a small forehead laceration, was fined \$10 and costs by Mayor Lloyd Culler at Washingtonville.

Miss Seidner suffered a bruised hip, while a passenger in her machine, Lucille Wilhelm, 18, of New Waterford, suffered body bruises.

## IT ALL DEPENDS ON RUSSIA

In this spring a young man's fancy lightly turns to thoughts of Russia, if the young man has anything to do with military strategy. It suddenly has become plainly evident to almost everybody that the Soviet Union, at grips with Germany in the west and holding Japan at bay in the east, is the key to the fate of the Axis in its bid for world supremacy.

It may be, as the more knowing correspondents now are saying, that between Germany and Japan there is no more alliance than there is between two wolves, that they will work together only so long as it suits their convenience. But that does not alter the fact that so far it has suited their convenience very well to work together and that, if it were not for Russia, they would be finding their alliance infinitely more convenient than it is now.

Russia is the great land power of World War II. It is also one of the major air powers and a formidable naval power. While it continues to be successfully active against Germany, it is unlikely that Nazi strategists will risk a new campaign. Russia has done in World War II what it did in World War I—offset Germany's initial military advantage, gained by secret preparations and sudden attack.

Adolf Hitler's admission that his 1942 spring offensive, which was to have done what his summer offensive against Russia failed to do in 1941, now may have to become a summer offensive, with victory indefinitely postponed, indicates broadly that his difficulties in the Russian campaign are at least as great as the wishful thinkers have wanted to think they are. There no longer is any inclination to discount Russia's importance in the war; whether regarded as a welcome ally or not, the Soviet Union is the chief hope at the moment of the anti-Axis bloc. It alone was ready for the trial it is undergoing.

## HONESTLY NOW

The list of national coordinators made available by Sen. Harry F. Byrd, who thinks this type of activity in the office of civilian defense is a lot of pish-tosh, contains these titles, among others:

National bag punching coordinator, weight lifting coordinator, bobsled coordinator, archery coordinator, paddle tennis coordinator, horseshoe pitching coordinator, roller skating coordinator.

There also are coordinators for yachting, walking, tug-of-war, ice skating, canoeing, fencing, badminton and bicycling. Sen. Byrd understands there are 61 in all; he has received 51 so far.

Certainly many of the persons concerned with this sort of thing must realize why it is absurd. The thing that gives the public the jumping jacks, though, is the evidence that the earnest men and women in Washington who thought up this tomfoolery haven't yet waked up. Honestly now, why don't they try to explain to the public in words of one syllable that everybody can understand just what it is they are trying to do?

## ANTI-CLIMAX

Days after hints and announcements from widely scattered quarters had convinced most Americans that their troops and equipment were in Australia, they learn from the war department that this is true.

Once more the question is raised: What is the official purpose of censorship? If it is to keep news of vital importance from the enemy, which is the standard answer to the question, then must it be assumed that the enemy did not know days and weeks ago that United States troops were in Australia, or headed in that direction? Surely, the enemy does not wait till he can catch up on current editions of American newspapers to find out what is happening in the southwest Pacific.

## THE STARS SAY:

For Thursday, March 19

WHILE MATTERS generally seem to move along securely in accustomed grooves there are signs of a sinister state of affairs tending to undermine and craftily uproot the most methodical and safe endeavors. It would seem as though this menace were well organized, with strategic policies little suspected or foreseen. Public or community issues are at stake, and probably the best way to avert open as well as deep seated duplicity is on a policy of "dog eat dog," although there are promises of unexpected assistance.

Those whose birthday it is may find that on the surface all things are progressing in routine lines of endeavor, with seeming prosperity and stability, but underneath is a sinister antagonism aimed at uprooting and disabling the best directed effort. Such undercurrents may be personal as well as organized by cliques, political, or biased business interests, and the public or the community welfare may be menaced. However, there is a sign of strange or unlooked for assistance to turn the tide to progress and gratification.

A child born on this day should have fair abilities and ambitions, and should have moderate success in life, although beset by much underhand and subtle antagonism.

## MACARTHUR FACES TOUGH JOB

(By Associated Press)

WASHINGTON, March 18.—General Douglas MacArthur is facing an extremely formidable task in directing the battle for Australia, military experts declared today in cautioning against a wave of false optimism.

The odds, they pointed out, were still heavy in the enemy's favor, however much the United Nations may have been heartened by the arrival of American troops in considerable strength or by MacArthur's dramatic shift from Bataan to the Australian theatre.

In all analysis of the situation, the most these authorities would venture was that the Japanese would be in for the fiercest campaign of the war if they attempt to blitz Australia as they have smashed Singapore and the Dutch Indies.

The expectation was that the enemy would risk the campaign, nevertheless. If the Japanese do not attempt it, or if they make the attempt and meet with failure, then the great island continent down under remains securely in the hands of the United Nations as the jumping-off point for a major offensive.

If MacArthur can hold Australia for such a day, the experts said, the Australian, American, Dutch and British fighting men serving in his command have a long and costly job ahead, with plenty of reverses to match the successes they may win.

The strategy that the task calls for goes well with MacArthur's military temperament. It is the strategy of a dynamic defense—striking out as hard and as often as possible at the enemy.

Military experts were of the opinion that the battle for Australia would prove a war of maneuver, as contrasted with the war of position that is being waged on Bataan.

It was considered doubtful that MacArthur—even if he tried—could prevent the establishment of enemy beachheads along Australia's long, exposed coastline. A static cordon defense would require an astronomical number of men.

Rather, it was believed that MacArthur would meet such threats by counter-punching with fast, hard-hitting mobile ground forces, backed up by aerial blows of fight and bomber commands held in reserve at salient bases for just such an emergency.

Thus, once the Japanese had landed, they would have the difficult assignment of exploiting their advantage in the teeth of strong allied air and ground opposition.

A sports item says: "The Yankees sold a baseball player to the Dodgers." Congress, however, is too busy to investigate the deal.

## NEW DRILL MASTER

## BABY'S SKIN NEEDS PLENTY OF CARE

Prevention of Skin Infection Is Important

By LOGAN CLENDENING, M. D.

INFECTIONS of the skin occur in three different age periods: one is in infancy and is called impetigo; one is in adolescence and is the familiar acne or pimples,

Dr. Clendening will answer questions of general interest only, and then only through his column.

and the third, in old age, erysipelas. All these infections are due to the entrance into the skin of one of the pus organisms.

In the case of impetigo in children the real medical problem involved is prevention. It wouldn't be quite correct or fair to mothers to say that the reason babies get impetigo infection is that they are dirty, but somehow or other it is nearly correct and the hygiene of the care of a baby's skin is not sufficiently understood.

Chapping and skin irritations are usually the beginning of the trouble. A red, chafed skin is naturally a good breeding ground for germs, and around the diaper area this should be watched constantly. Mothers seem to think that it is very mysterious that an infection could get from the diaper area to the face, where the infection is usually at its worst. It isn't mysterious at all, it gets there by the baby's hands.

## Antiseptic Powder

For this reason the toilet of the baby's skin all over, from the bath to the use of an antiseptic powder and sometimes antiseptic oils, if the baby's skin responds well to that, should be a regular part of infant hygiene, especially in summer and early spring. With excessive sweating and acid perspiration, the toilet of the skin and the use of antiseptic powder is very valuable.

If a sporadic case of impetigo has occurred, the treatment is, in the first place, to see that it doesn't spread. This means that the baby's hands, shirts, crib pads and blankets should be disinfected. The mother's or nurse's hands, while handling the baby, should also be disinfected. The baby's hands should

be protected so that they can't get at the infected spots and spread the infection to other parts of the skin.

Visitor control: There should be two visitors at a time only. No child visitors should be allowed in the nursery. Of course various antiseptic lotions and ointments are used to control the infection and bring the inflammation of the skin back to normal.

## No Minor Matter

The important thing to remember is that impetigo, or a little infection on the baby's skin is not a minor matter, but should be handled like a full-blown infectious fever.

In the case of the skin infection or adolescence, acne, there is some question as to whether it is an infectious disease of the skin. One thing is certain: no one ever caught acne from another person and it is seldom spread by the hands from the face and neck area. It is an indolent disease, there is probably a good deal of chemical or metabolic change in the body which accounts for it. For this reason a low fat diet has proved to be quite beneficial and sometimes cures cases without any other treatment. This

**I found**  
the way to  
amazing new  
pep... vitality...  
better looks!

A truly marvelous change can be brought about by overcoming miserable digestive complaints, under-weight, sluggishness, loss of appetite—all by two important steps—

● Restore vital digestive juices in the stomach... energize your body with rich, red blood. Here's how!

If you are one of those unfortunate who have worked under a strain, failed to eat the proper foods, have been vexed by overtaxing worries, or have suffered with colds, the flu, or other illness... yet have no or no real trouble... or focal infection... and your red blood-cells have become reduced in vitality and number... if your stomach digestion refuses to work properly, then here is what should help you!

S.S.S. Tonic is especially designed to build up blood strength when deficient... to revive and stimulate these stomach juices which digest the food so your body can make proper use of it in rebuilding worn-out tissue. These two important results enable you to enjoy the food you do eat... to make use of it as Nature intended. Thus you may get new vitality—become animated—become more attractive!

## Build sturdy health

Because S.S.S. is in liquid form it begins its work as soon as you take it. Surprising results may be had by making the S.S.S. treatment a part of your daily diet. Thousands and thousands of users have testified to the benefits S.S.S. Tonic has brought to them and scientific research shows that it usually gets results—that's why so many say "S.S.S. Tonic builds sturdy health and makes you feel like yourself again." © S.S.S. Co.

HUTCH

OF THE R.A.F.

by PETER MUIR

CHAPTER FOURTEEN

The train trip down was uneventful. There were several other people in the compartment with Wendy, but she paid little attention to them. She was contented to look out the window, to watch the soft autumn landscape, the lovely thatched cottages, and flocks of sheep grazing on the lush pastures, and to feel the peace of the world, and yet it was so close. Was it possible that such a charming, bucolic country could be in a life and death struggle for its very existence? It was indeed, and what a pity! Life could be so beautiful if man were different, or rather if there were no Nazis.

Lady Harrowsdale was waiting at the station to meet Wendy, and took her directly to The Downs. It was mid-afternoon and a golden haze hung over the country. His lordship had not come in from a tour of inspection of the new air raid shelters, so the mother and daughter sat down together for a cup of tea. Wendy asked the usual polite questions about her father, Phil, the hospital, et al. The father was well and very busy. Phil had brought down his first plane; the hospital was crowded.

"That young American you introduced me to," the mother said, "is up and about. He goes around as he likes now. I have never seen a wound heal so quickly. Remarkable people, those Americans, they even heal faster than any one else!"

Wendy wasted no time before she made an excuse and got away. She hurried towards the hospital, but before she arrived, she saw a lone figure wandering in the opposite direction across the golf links. He was near the spot where they had met, and she quickened her pace as much as was possible, without breaking into a run, to overtake him. David was so deep in his own thoughts that she was able to slip her arm through his and fall into step with him before he realized who it was.

"Wendy!"

"Are you glad I'm here, David?"

"Was he glad? He thought he had never been happier! He was so happy that he could have kissed her right then and there. In point of fact that is just what he did without further preliminaries. Nor was here a struggle.

A mischievous caddy saw them, standing there, locked in each other's arms on the fairway, and yelled "Fore!"

Every day they were together for long hours, and the days passed with a terrible rapidity. They took long walks over the meadows and through the woods, and kissed and talked of love. Wendy wondered if, after all, she was really going to be forced to ask him to marry her. She had quite made up her mind to do it if necessary. But it wasn't. On the third day after her arrival, he said simply, "Will you marry me, Wendy?" and she was about to answer in the affirmative when he added, "After the war?"

"But why after the war, darling? We may be a hundred and ten years old by then. Let's profit now while we're young. Let's live and get

every little ounce of pleasure from life while we can."

"No, Wendy." He held her at arm's length while they talked, and looked deep into her brown eyes. He was intensely serious. "I could not now, not while I'm in the air. It's—well, I don't want to exaggerate, or give you the idea that I'm courageous—but it is dangerous work that I have ahead of me, and I don't think it's exactly fair to leave you a widow. I want to be sure that I have a chance of living first. I want to know that I can be with you and make you happy. Don't you see, my sweet?"

She didn't see, and tried to argue, but in a very short time she knew that this was useless. At all events she was intelligent enough to hide the fact that she was hurt. She would keep their friendship, their love, on a happy basis. They would continue to be gay companions for the moment. Perhaps later she would be able to change his point of view.

\*\*\*

The doctor declared that the wound in David's shoulder was healed, his health excellent, and dismissed him from the hospital on the same day that Wendy was to return to her ambulance section at Watford. They arranged to travel together and Wendy said that, if he would come with her to Watford, she was sure that Miss Gill would let her take him to St. Albans in an ambulance. He laughingly replied that he didn't care much about riding in ambulances, but accepted. He told her where the Hornets were stationed, knowing that the secret was safe with her. "Besides," she said, when suggesting that she take him to the squadron, "I can see Phil."

They were to catch an early afternoon train, and David said that he would be delighted to lunch at The Downs when Lady Harrowsdale extended the invitation at Wendy's suggestion. Wendy wanted her father to know David and, above all, to like him. This would make the way smoother for her David when the time finally came for him to ask the older man's consent.

Wendy did not know that Lord Harrowsdale was already aware of the love that existed between David and herself; she was surprised at her father's distinctly hostile and aloof attitude during the meal. He was courteous to the guest, he could be nothing else according to his stiff code of an English gentleman's duty in his own home, but he did not warm up or show the least sign of friendliness. This was particularly unnatural, Wendy thought, because she was well aware of her father's love for soldiers and his unbounded admiration for heroes. And David was both.

Could it be because Lieutenant Hutchinson was an American? She did not think this possible. On the contrary, this made him a double hero, as he was a volunteer, fighting for a cause that was not even his own, risking his life for England. It is easy, she thought, to defend yourself—anyone would do it—but to fight the other man's battle is heroic, and Wendy found herself growing more and more

angry with her father as the life while we can."

Lady Harrowsdale's tact was perfect, and she was successful in keeping up a brisk conversation with David. She did not share her husband's idea that only Englishmen were fit husbands for English women. She believed in love first and, in spite of her capable, business-like ways, she was a romantic. The boy was obviously of a gentle family, clean cut, decent, modest, and a hero. He was handsome, too, and if he and Wendy were in love that was enough. She spoke to him of travel, particularly in France, of skiing, of art and literature, and of flowers, and found his ideas on all these subjects intelligent and full of knowledge. He knew a surprising lot about flowers, which won her heart completely, and seemed most interested in the new wing which was being built onto the hospital. David also had tact. He would be a good diplomat, the hostess thought.

It was not until they were settled in their compartment, and the train was well on its way, that David mentioned the luncheon. "Your mother's a darling," he said. "His Lordship, however, is another proposition. He's going to be a tough nut to crack."

Wendy laughed. "Wasn't he dreadful! I've never known him to be that way. You know, my sweet, I have an idea that the Mater has spoken to him about us. She is a wise woman who sees all. Father would never have noticed anything if it hadn't been pointed out to him. The only things he sees are horses and air raid wardens, and sometimes a grouse or The Times."

"I wouldn't know about that," David said. "But I do know that every time he looked my way he saw red. I certainly didn't sell him a bill of goods."

Again Wendy laughed at this very American expression. "My sweet, I had hoped that the Mater's most animated conversation had hidden from you the pourings of the head of the house. He'll be easy to handle when the time arrives."

"And till then, let's take our jumps as we come to them. We've the war to win first, and that's quite a job."

She did not answer this. Instead of speaking, she slipped her arm through his, drew him closer, and took his hand. There were several other people in the compartment, but she did not care. She was with her David, and she was happy, even forgetting for the time the nearness of their coming separation. It was good to be alive, and doubly good if you were in love.

Yes, Miss Gill could spare an ambulance. She was definitely an old maid, sharp featured, sour, and kind. A man always gave her a secret thrill, and when this man happened to be the young American ace, of whom she had read a great deal in the newspapers and magazines, she simply could not refuse although she was short of cars at the moment. That is, she could spare an ambulance if Wendy promised to hurry back. Wendy promised.

When they arrived at St. Albans

field, the C. O. told them that the squadron had just gone out on patrol duty and would not be back before sunset. However, as Wendy could not wait, he suggested that she come again to see her brother. In fact, he said, she would always be welcome as long as he was in charge of the field. She thanked him, kissed David good-bye, and left, throwing up a cloud of dust behind her speeding car.

When she was gone, the C. O. raised his eyebrows. "Looks as though you haven't wasted much time during your absence. I say, she is beautiful!"

"We're engaged to be married," David said, fearing that the kiss might be misunderstood.

"My congratulations! And when will this take place?"

"After the war, sir."

Bloody fool, the C. O. thought. Why doesn't he marry while he can. There will probably be no "after the war" for him. Aloud he said, "I see," and changed the subject. "Are you ready to fly?"

"Yes, sir. Immediately."

"Tomorrow morning we have orders to accompany a large group of bombers over Brittany, daylight raid on the port of Brest where the Nazis have concentrated a large number of troops, barges and supplies for the invasion. We will be the only protecting squadron, can't spare any more fighters, and it is a particularly tough job. I want you back as squadron leader if you feel up to it."

"I do, sir."

"Stafford has been taking your place, and doing well, but I prefer to have you there. He understands that his appointment was only temporary during your absence."

"There's no trick to getting long tire mileage," says this Sandusky bakery man who is one of our SOHIO customers. "Anybody can do it with very little trouble. Why, I've driven 216,000 miles in six years and had only three flat tires!"

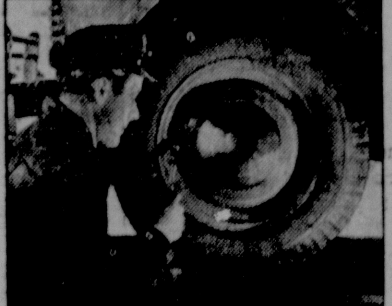

"JUST LEARN THE SIMPLE RULES FOR LONG TIRE LIFE—THEN FOLLOW THEM," says Mr. Steele. "Ask any car owner who gets 40 or 50 thousand miles from a set of tires and you'll find we all follow the same easy rules," he told our SOHIO interviewer.

"Now that proper care will be the difference between riding and walking later on, everyone should give this their attention. Of course, I can walk but I'd rather ride. Wouldn't you?"

# "53,000 MILES ON 1 SET OF TIRES!"

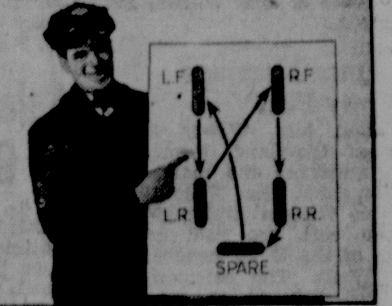

## Here's how I did it...

## Here's how you can do it!"

**AIR PRESSURE CHECKED EVERY WEEK**

"I learned long ago that if tires are underinflated they wear out very fast. So every week without fail I have my SOHIO service station check the air pressure in my tires and keep it exactly correct."

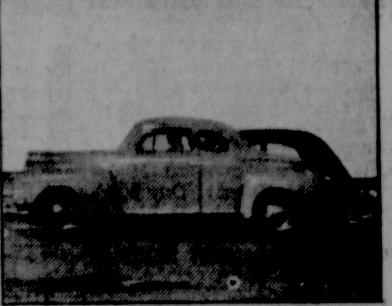

**TIRES SWITCHED EVERY 5,000 MILES**

"Tires wear fastest on the rear wheels and on the right side, of course. To get even wear from all of them, I have my wheels cross-switched every 5,000 miles. This diagram shows how I switch them."

**REGULAR INSPECTION—NAILS, GLASS, STONES REMOVED**

"I inspect my tires every month. I take out any foreign matter that gets imbedded in the tread... watch for cuts and bruises. This way, I'm able to avoid a lot of tire trouble and have small injuries repaired before they do serious damage."

**TAKING IT EASY**

"Every experienced driver knows that speed and abuse ruin tires. A big part of that 53,000 miles of service from my tires has been due to driving at moderate speeds, not bumping curbs when parking, avoiding quick starts and stops—taking a little extra care."

Speed, Bumps, and Underinflation are the three big enemies of long tire mileage.

It's up to you to avoid speed and bumps. But SOHIO will gladly take over the job of keeping your tires properly inflated. Come in every week for this free service.

With reasonable care, you, too, can get thousands of extra miles of wear from your tires! THE STANDARD OIL COMPANY (OHIO)

Tire care is another SOHIO service!

### Mary Ellet Tent Has Coverdish Dinner

Mary Ellet tent No. 70, Daughters of Union Veterans, enjoyed a coverdish dinner at the K. of P. hall last night preceding the regular meeting. The tables were attractively decorated for St. Patrick's day.

Practice was held for inspection which will be conducted at the next meeting, April 7.

Circular letters and general orders from national headquarters in Washington, D. C. were read by Mrs. Wallace Stewart.

## LINGERIE AND LOUNGING GARMENTS ARE LOVELY

Left, satin nightgown with Chantilly lace; center, Ming blue wool lounging pajamas; right, Chantilly and chiffon tea gown.

If you're one of the girls who is planning an early spring wedding, you'll be interested in such trousseau items as lingerie and lounging pajamas. Even if you are not, however, you'll probably feel the urge to have some flattering, feminine attire for leisure moments. The three different models shown in the above photographs are charming and seductive. The slim, shimmering satin nightgown, left, is one any bride would welcome in her trousseau. It has a deep front yoke of chalk white Chantilly lace, soft shirring under the bust, and small cap sleeves. Lace also is used in the double trim at the hem. For cocktails, tea or informal dining at home, the Ming blue wool pajamas, center, are appropriate and flattering. They have long sleeves, clever waistline shirring, and a roll collar effect topped with a cluster of colored fruit. The wide belt of self material hugs the waist, and the sleeves and trousers are full. The lovely tea gown, right, is made of hand-clipped Chantilly and chiffon. The long molded bodice is zipped neatly up to the low neckline, and graceful little puffed sleeves and trailing skirt add notes of eloquence to the creation.

town, Salem, Alliance and Akron, according to H. Glenn Johnson, field supervisor for northeastern Ohio for the employment service. Most of these offices, Johnson said, will attempt to furnish the company with 50 applicants a day, and the majority of those furnished will be women. A representative of the Atlas Powder company will be in the Salem office (Monday through Friday of each week, or Monday and Wednesday of each week, etc.)

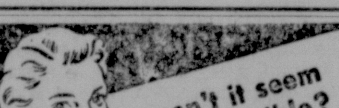

Company officials pointed out that women who desire jobs as line operators need not have previous experience in factory production operations. Applicants must be 21 years of age or older, citizens of the United States and be able to present a birth certificate or other proof of citizenship. Physical examinations will be given all applicants on the plant grounds at the time of final interview.

## Encircle Nazi Garrison

MOSCOW, March 18.—The Soviet  
armies of the center were reported  
today to have encircled a German  
garrison at Gzhatsk, 160 miles west  
of Moscow and closest foothold to  
the Russian capital still retained by  
the Nazi invaders.

It was to Gzhatsk that the Ger-  
mans withdrew after their disas-  
trous defeats at Mzhalsk and Bor-  
odino. On the rail line from Moscow  
to Zmoletsk, Gzhatsk lies 100 miles  
west of the capital and only 35  
miles northwest of the key Ger-  
man defense position at Vyazma.  
The western front dispatch which  
reported the city had been cut off  
told of a supply-laden transport  
plane being shot down in an at-  
tempt to reach the German garri-  
son.

## Demonstration In Uruguay

MONTEVIDEO, Uruguay, March  
18.—Crying "death to the Axis  
countries" and singing the Urugu-  
ayan national anthem, crowds of  
students demonstrated against the  
morning against the sinking of the  
Uruguayan steamer Montevideo,  
torpedoed off the coast of Haiti.

Reinforced police guards were  
thrown around the German legation  
office and the home of the German  
minister today in the wake of simi-  
lar student riots last night.

(Youths also rioted in Santiago,  
Chile, in protest against the sink-  
ing of the Chilean freighter Tolten  
last Friday outside New York har-  
bor. In flying raids, they smashed  
windows of shops belonging to Axis  
subjects and suspected sympathiz-  
ers.)

(The youths called for an im-  
mediate diplomatic break with the  
Axis. Chile and Argentina are the  
only Pan-American nations which  
have not broken off relations.)

## Confirm Homma's Death

SANTIAGO, Chile, March 18.—A  
dispatch from Tokyo to the news-  
paper El Chileno said today that  
Lieut. Gen. Masaharu Homma  
had rejoined the main imperial  
troops at Prome.

Homma, commander of the Jap-  
anese Philippines expeditionary  
forces, was reported early this  
month by Gen. Douglas MacArthur  
to have committed suicide because  
of his failure and to have been  
succeeded by Gen. Tomoyuki Yam-  
ashita, the conqueror of Malaya.  
El Chileno's dispatch said the  
proof of Homma's suicide was the  
fact that "the name of his suc-  
cessor, General Tomoyuki Yam-  
ashita, has been announced."

NEW DELHI, India, March 18.—  
British army headquarters today  
announced that the main strength  
of the Japanese forces seeking to  
drive into Upper Burma along the  
Rangoon-Prome road still is south  
of Takkyl, 40 miles north of Ran-  
gson and 115 miles below Prome  
itself.

Further east, along the road  
running from Rangoon to Toungoo  
British imperial advance units were  
reported in action with strong  
enemy forces south of Kanyutwin,  
a highway point 30 miles above

## INTERFERENCE IN WAR EFFORTS HIT

### Nelson Promises to Knock Out Handicaps To Production

(By Associated Press)  
WASHINGTON, March 18.—Don-  
ald M. Nelson has given America a  
new promise—to knock down all in-  
terference to war production, wheth-  
er from management haggling or  
union slowups.

In a broadcast message to the  
nation last night the war produc-  
tion chief said the country's fac-  
tories already were turning out war  
goods in large volume and that  
plane production had gone up more  
than 50 per cent since Dec. 7.  
"But this is no reason for false  
complacency," he said. We need  
more and more of these  
weapons, and we need them now.  
We have got to realize the value of  
time.

Every Minute Counts  
"Here is what time is worth. A  
machine gun factory in full swing  
can equip a whole regiment in a  
day and a half. Thirty-six hours  
of work. That's why hours are im-  
portant. Every minute counts.

"Yet some manufacturers have  
come the war production board to  
plead for just a few extra months  
before going into war production.  
Some of them want to delay before  
awarding a subcontract. I know of  
a case where 26 days were wasted  
this way. You and I will not stand  
for that.

"Then, too, I know of cases where  
workers in war plants have been  
told by other workers—by men in  
their own unions—to keep produc-  
tion down, to take it easy, not to  
hurry, to spread the job out and  
make the work last. You and I will  
not stand for that either.

"These cases are not typical.  
They are becoming fewer and few-  
er. In my opinion they simply re-  
flect the fact that a few people  
just haven't got it through their  
heads that this is a life-and-death  
matter. I pledge my word to the  
American people that I will knock  
down such indifference or inter-  
ference wherever I find it."

## Hits Axis Propaganda

Nelson said Axis propaganda  
agents were trying to wreck the  
government's speed-up drive and  
cautioned that "groundless fears of  
a few people could bog down the  
whole effort."

It was understood he referred to  
claims by the Berlin radio that the  
production drive, with its joint la-  
bor-management committees in  
war plants, was a scheme to  
Sovietize American industry.

Nelson said the program was  
"not a management plan, a labor  
plan or any other plan. It is the  
war production board plan."

During the next two weeks the  
program is to be explained to la-  
bor and management groups in a  
series of regional meetings. After  
these meetings, Nelson said, the  
success of the drive "is up to the  
men and women, labor and man-  
agement in the plants."

Among the first groups to re-  
spond was the Steel Workers' Or-  
ganizing Committee (CIO), which  
notified Nelson it was ready to  
meet with management commit-  
tees to map an immediate program  
for increased steel production.

## 700 "Prove" Birth

LISBON, March 18.—Hearings on  
birth certificates in court room No  
2 here Tuesday before Judge H. W.  
Hammond, brought to over 700 the  
number of documents issued  
through the probate court under  
the new law making it possible for  
a person to prove birth although  
it had never been recorded.

The rush for birth certificates,  
caused by the demand of defense  
industries, resulted in the law  
whereby a person, by producing a  
document such as a Bible record or  
insurance policy, and accompanied  
by two competent witnesses, may be  
heard before the court and the  
certificate granted.

opening of the South Liberty ave.  
fire house, closed several years ago  
as an economy measure.

Nyaunglebin and 40 miles below

The communiqué also reported  
that a large force of troops, most  
of them Indian Gurkhas, who were  
cut off in the battle at Takkyl,  
had rejoined the main imperial  
troops at Prome.

# Fitzpatricks Edge Celtics In Thrilling Overtime Fray, 34-33

## DUNLAP PACES "A" LEADERS AS KNEPP SHINES FOR CELTS

Don Freed Leads Cavs To Win With 16; Rogers Paces Losers

Salem cage fans got a good bargain bill at the Memorial building last night as the Celtics bowed to Fitzpatricks in an overtime, 34-33, and the Cavaliers evened their title playoff series with the Cadets, 36-37. The Cavaliers and Cadets will decide the Class B championship Friday night when they meet again at the Memorial building, while the Celtics and Fitzpatricks will clash once more next Monday night.

Fitzpatricks opened the first quarter by nearly sweeping the Celtics off their feet. With Amos Dunlap hitting the hoop for eight points, the Class A kings went ahead 13-4 at one stage of the period and led by 13-7 going into the second frame. The Celtics' passing attack then began to click and with Priddy hitting the hoop for several points they tied up the game at 13-13. From there on in until the final whistle the game was one of those close ones, keeping the spectators on the edges of their chairs. Dunlap and Jim Dickey each tallied a bucket to give Fitzpatricks a one-point edge at the intermission, 17-16.

### McGaffick Scores

The second half of the game was a slug-bang with both teams driving for points and neither caring how they got them. Ray McGaffick, the Celtics' ace, got loose from Kenny Shears for a few minutes and dropped in two fielders to help the Celtic cause while Knepp, who played his best game of the year last night, added a pair to boost the Celtics' total. Shears broke loose for a pair of two-pointers and so did the elusive Dunlap, while Dickey added another bucket to his total. The quarter ended with the Celtics out in front, 25-24.

The last quarter found the scoring pace of both teams easing off as a result of the fast pace. The Fitzpatricks rallied to shove in eight points while holding the Celtics to seven, and the game went into an overtime. It was Amos Dunlap's long shot which tied up the game with a few seconds left to play. McGaffick again led the Celtics' attack as he parted the cords for five points to keep his team in the game. Del Schaffer and Shears scored the Fitzpatricks' other two buckets.

In the overtime, both teams had numerous chances to score with Fitzpatricks missing five free tosses in the three-minute period. The Celtics scored on a free throw and began to freeze the ball in the dying minutes of the game. Bob Scullion, who played a beautiful rebounding game after being inserted into the fray, passed to Knepp but Knepp never received the ball as Del Schaffer broke through to intercept the ball and drop in a two-pointer with only seconds to play. The Celtics were thoroughly stifled in that small length of time.

**Dunlap, Knepp Star**  
Amos Dunlap's brilliant play was a standout in the Fitzpatrick lineup as he dropped in 16 points and played a good defensive game. Les Knepp, Sam Priddy and McGaffick paced the Celtics' attack, combining to tally 26 of the losers' 33 points. In addition to this, Knepp played a wonderful defensive game as he held down the always dangerous Bill Schaffer and blocked numerous shots attempted by other members of the winning team.

His rebounding was better than average and his presence on the floor kept the Celtic team together in tough spots. Guappone had a bad night as he failed to tally from the field. His only score came on a foul shot in the second period. Shears played a nice ball game for the winners as he outfoxed McGaffick several times in addition to holding him scoreless the first half.

In the preliminary game of the evening, the Cavaliers displayed a beautiful brand of ball to top the Cadets, 38-37, and even their play-off series at one game each. The whole Cavalier team played nice ball with offensive honors going to Don Freed and Bill Theiss, who tallied 16 and 12 points, respectively. To Jack Tinsley went top defensive honors as he held Johnny Handick to only a free throw.

**Cavaliers Lead Whole Game**  
The Cavaliers led all the way as they held margins of 12-11, 21-15, and 31-29. The score was knotted at 33-33 in the final frame but the Cavaliers pulled away to win easily. Jimmy Rogers played a beautiful brand of ball for the losers as he pounded the hoop for 14 points. Warren Tullis gave some valuable aid with nine points. The final game of the series will be played Friday night.

## WINTER TRADE MAY GIVE BUCS NEEDED RESERVE STRENGTH

Frisch Pleased With Swap Which Sent Vaughan To Brooklyn

(By Associated Press)

SAN BERNARDINO, Calif., March 18.—There are four gents with the Pittsburgh Pirates this year who would like to make a bum out of the leader of the Brooklyn bums—Leo Durocher.

The four are, from left to right, outfielder Jim Wasdell, Catcher Babe Phelps, Pitcher Luke Hamlin, and Infielder Pete Coscarart, who comprise the Pittsburgh booty in the Arky Vaughan trade.

This bum-making business isn't exactly an impersonal matter with some of these fugitives from the Dodger fold, it might be noted, and it's no idle phrase that everyone of the group would be pleased to have a good year with Frankie Frisch's Pirates, thereby casting a reflection on the masterminding of Durocher, the Babling Brook.

These are definite opportunities for the quartette in Manager Frisch's plans. He believes Phelps and Al Lopez give him the best catching staff in the National league.

He thinks Wasdell in right field will have a great season at the plate; that 35-year-old Luke Hamlin will serve well on the mound, and it's a loss up between Coscarart and young Al Anderson for the shortstop berth.

The short field and third base, incidentally, are Mr. F's main worries since he lost a whizzer prospect when Bill Cox joined the army. Anderson played a lot there last year but Coscarart may take over the steady assignment this season.

At third, Lee Handley may recover from a shoulder injury suffered in an auto wreck last December. If so, well enough. Meanwhile, six-foot Bob Elliott, called in from the outfield, has looked very well this spring.

The Pirate outfield of Maurice Ray Robays in left, Vince Di Maggio in center and Wasdell suits Frisch on paper, but back of them he has four others—Ed Stewart, Johnny Rikard, up from Hollywood; Cully Carr, who joined the Buccos from Memphis last fall, and John Wyrostek, a New Orleans clouter. Frisch has lefthand hitting this year for a change.

But Batcher, a 17-game winner, heads the hurling staff. It shapes up as most promising, with such flingers as Rip Sewell, John Lanning, Bob Klingler, Bill Clemensen, Henry Gornick, Aldon Wilkie, Dick Conger, Ken Heintzelman, Nick Strincevich, Lloyd Dietz, Hamlin and a couple of others. Out of that Fearless, Frank believes he can mount a good staff.

The Pirates ranked fourth in pitching and third in hitting last year. They rated first in fielding, but only if you turn the league table upside down. Those errors hurt.

"That's what has me worried the most," Frisch sighed.

## Miami Coach Calls For Grid Prospects

OXFORD, Stuart (Sta) Holcomb, new Miami university football coach, has called spring practice for the Redskins.

"We'll work now with all the boys who come out, and let next fall take care of itself," declared Holcomb when asked how he would meet the problem certain to arise between now and autumn in the drafting of a number of his squad for army service.

Asked what type of football he expects to use here, Holcomb said he preferred the short punt formation, but might use the single wing-back, depending on the material.

Holcomb arrived this week from Washington, Pa., where he was grid coach at Washington & Jefferson college—a job he went to last year from Muskingum at New Concord, O.

## Big Guns of Boston Braves

Max West, Ernie Lombardi and Chet Ross  
This trio of Boston Braves is expected to do some fence busting this year even if the team is a second-division campaigner. Shown during practice at Sanford, Fla., the Braves are, left to right, Max West, Ernie Lombardi and Chet Ross. Lombardi, ex-Cincinnati catcher, has been hitting 'em far in the Braves' training camp.

## POLLY AND HER PALS

## Australia, Now Threatened, Much Like U. S.

For in the far East now has reached Australia, the small continent "down under," which closely resembles the United States in many respects. The excellent map above, prepared by E. George Green, International Illustrated News cartographer, gives a detailed study of the continent, showing naval bases, air bases, natural resources, industries and topography. Australia is an agricultural country and great wool producer. Sheep and cattle are raised in central and western areas and farming is carried on in the south. The chief cities lie along the southeast coast. Most of the interior is desert wasteland. A new defense highway was built in record time to link the south with Darwin, northern port and site of a naval base which has been bombed by Japanese planes. Australia, a British commonwealth, is composed of six states, including the island of Tasmania, which lies directly south. Size of Australia is almost that of the United States, but the population, 7,016,449, is less than that of the state of Illinois. The two principal cities, Sydney and Melbourne, have populations in excess of 1,000,000 each. The capital is Canberra.

## MacArthur's Flight To Australia Thrills United Nations

Mrs. MacArthur and son, Arthur

Maj. Gen. Wainwright, left, and General MacArthur

News that General Douglas MacArthur, hero of the Philippines, had flown from his Bataan headquarters to Australia to become supreme commander of the United Nations forces in that area thrills the nation. General MacArthur, who has directed the activities of the gallant U. S. forces holding out on the Bataan peninsula for more than two months, flew to Australia with his wife and their four-year-old son; his chief of staff, Maj. Gen. Richard K. Sutherland; Brig. Gen. Harold H. George of the Air Corps and several other staff officers. It was revealed that Maj. Gen. Jonathan M. Wainwright, shown with General MacArthur in the Philippines, above, would take over MacArthur's old command.

### Drill For Air Raids

LISBON, March 18.—Children of the rural schools of Columbiana county are being trained by teachers as to the proper procedure in case of an air raid, according to instructions issued by the federal government, County Supt. W. E. Roberts announced today.

There are 57 schools and approximately 4,500 pupils in the county school system, now receiving this course of instruction which provides two types of drill, (1) where children are sent home upon advance notice of the air raid alarm and (2) where children are kept in the school and in some central safety room of the building.

LAS VEGAS, N. M. — Grade school students are stamping their teachers in New Mexico schools. Spanish was inaugurated as a subject in grade schools and a survey disclosed that of the 6,898 children taking the course 5,149 spoke Spanish as their native tongue.

## As Stimson Drew Capsule 3485

Beginning the nation's third draft lottery, Secretary of War Henry Stimson holds aloft capsule number 3485, the first of 7,000 seen in the historic goldfish bowl which will determine the marching order for another 9,000,000 potential fighting men between 20 and 44 years of age. Col. John Langston, chairman of the planning council of the selective service system, assists the war secretary.

## AUXILIARY CORPS GIVEN HOUSE O. K.

Would Provide 150,000 Women For Behind-the-Lines Duty

WASHINGTON, March 18.—The creation of a women's army auxiliary corps of volunteers to give American women the same chance as their British sisters for military service had the approval of the house today.

The chamber backed the plan by a roll call vote of 249 to 86 late yesterday and sent along to the senate legislation which would set up a corps with a maximum strength of 150,000 women between the ages of 21 and 45 for behind-the-lines service with the armed forces.

Final passage came only after bitter though scattered protests from the floor that the measure was an "insult to American manhood;" that it would subject women to the menace of bombs and gas and to the possibly ignominy of court martial.

Retorting to this opposition, Rep. Edith Nourse Rogers (R., Mass.), author of the bill, cited the record of American womanhood's past heroism from the colonial days "when they defended their homes with guns from Indian attacks" to their sacrifices in World War I.

"They are just as anxious, just as willing, just as able to serve and sacrifice for their country today," she said.

The measure came into the house with the blessings of the war department, because such a corps would release thousands of soldiers for combat duty by turning their chores over to women just as able to handle them.

Subject to senate passage and approval by President Roosevelt, the W. A. A. C. living in barracks, would take over jobs ranging from cooks and laundry workers to supervisors at aircraft warning filter stations and teleprinter operators. They pay would start at \$21 a month, just as in the regular army.

## Where Planes Hit 13 Jap Ships

This map shows where the Japs are trying to establish bases to invade Australia. The War Department announced that eight heavy American bombers, raiding Jap ships in the harbor of Salamaua, New Guinea (1) left two ships sinking, four on fire and one beached. Allied bombers following up the American attack blasted Jap-held airports. Australia announced that air attacks on Jap invasion forces in the New Guinea area cost the enemy thirteen troop transports. Aussie bombers are smashing constantly at the Jap bases at Finschaven, Rabaul and Lae to dislocate Japanese preparations for a move against Port Moresby (2), which is only 300 miles from northern Australia.

army, said Australian soldiers "will be proud to work and fight" under him.

Military experts in Washington cautioned that Japan still had the edge for the battle for Australia. They said the Allies were inferior numerically and obliged to defend a vast and sparsely settled country with a long coast and extended supply lines.

However, adaptation of the country to defense in depth, numerous air bases, the possibility of reinforcements and absence of fifth column activity were counted in MacArthur's favor.

Even the German newspaper Koelnische Zeitung raised a question as to whether Japan had not spread her forces too thin.

Whether Japan can keep economically what she got by fighting, the paper said, "depends upon whether she is able to construct a sufficient merchant fleet in time to maintain communications between the motherland and the Pacific territories."

Japan's imperial headquarters reported that 25 Allied planes were shot down or destroyed on air raids in air raids last Friday and Saturday on Horn Island, off northern Queensland, and Port Moresby, New Guinea, 300 miles to the northeast.
